According to E. F. Palmer, director
of horticultural experiment station,
Ipswich, Ont., the bushes growing
in Corsan's garden are undoubtedly
seedlings of the black raspberry
but have lost the faculty of coloring

The result is popularly known as "sport." In plant-breeding work in Ireland, colorless, or white, is of both the red raspberry and black raspberry, or blackcap cropped up from time to time. Palmer states that these new ones would probably breed true, provided they are not grown near other varieties and have been cross-pollinated.

average span of life has been added during the past decade from 58 years, stated Dr. T. C. Montague, secretary of the Canadian Medical Association, in an address to the members of the Canadian Club. Improved methods of sanitation as well as hygienic methods have helped

to accomplish these results, he said, the committee reviewed the activities of the Canadian Medical Association in the interests of improved national health, which he claimed as the country's greatest asset.

Boutley urged that what Canada will be twenty years hence depends largely upon what the people decide it shall be. He stated that 13,000,000 working days were lost each year by the workers of Canada, owing to enormous economic losses, due, he stated, to disease.

And Antidote For Bolshevism
—
Patriotism Interested in Land Says
Lloyd George

Lloyd George, speaking at Cardiff, Wales, said there was a phenomenon at that country that was not witnessed in any country in the world—a mass patriotism authorizing \$200,000,000.

"Men was have a bit of land no time for Bolshevism," said the owner. "Get your 500,000 laborers in the land while they are not captured by Bolshevism. One of the stands between this country and socialism is the fact that the cultural laborer has not yet been freed by the Socialists. Let us justice done to him and done in the name of the people."
